### mediaJET Museum White Smooth High white matt cotton paper

Museum White Smooth is the slightly lighter addition to Museum Natural Smooth, also made of 100% cotton, with a soft surface and subtle paper texture. Low optical brighteners, acid-free and therefore ideal for long-lasting photo and fine-art reproductions. Ideal for black/white prints as the white tones are more natural and neutral due to the white paper. For premium prints with extremely high

### mediaJET PhotoArt White Satin Fourdrinier photo-art inkjet paper

*This PhotoArt paper full of character with a pleasantly grippy rag surface is bright white, with little optical brightener and made of 100%  $\alpha$ -cellulose. Printed surfaces, such as photos, graphics and drawings, are reproduced with a silk-matt effect; unprinted surfaces remain unobtrusively matt. This paper opens up new possibilities for photographers and artists and gives the print brilliance*

### mediaJET Museum Natural Silk Silk-gloss photo-art paper

A genuine fine-art cotton paper combined with the typical pearl surface of a classic photo paper. This natural white paper is lignin-free, acid-free and produced without brighteners and is therefore ideal for long-lasting, archival photo and fine-art reproductions with great colour depth, high tonal range and excellent image sharpness. This FOGRA-certified paper with a pleasant feel is particularly recommended for black/white prints with an extremely high D-Max value.

## textured

### mediaJET Museum Natural Velvet

#### Velvety soft fine-art cotton paper

Museum Natural Velvet is ideal when a soft, clear texture is desired for a perfect overall picture. This very beautiful, natural white 100% cotton paper has a special acid-free coating, without optical brighteners, which allows premium art prints with an increased colour range and high D-Max. This subtle paper has an even clearer rag surface than Museum Natural Rag.
